Karson George

Employment Objective

My years of experience as a teaching assistant have given me a lot of insight into the 3D modeling workflow while also improving my communication skills. I have become an attentive listener and am more than willing to provide support as needed, whether as a subordinate or as a mentor. My IT experience has also improved my ability to spot, diagnose, and resolve tech issues, and I fully intend to put these skills to the test in any job or field of study that I apply myself to.

I am a cooperative individual and enjoy serving as the glue that holds a team together. My collaborations with other artists have enabled me to create assets that synergize well with others' work, and my willingness to listen and to help others makes me flexible in any team-based environment. I hope that these skills will prove useful to you, should you consider me for the job.

Work Experience

Machine Tool Marketing
Tulsa, OK

Chief Information Security Officer   2021 - Ongoing
I am currently working with internal and external personnel to coordinate the implementation of CMMC cybersecurity policies on company machines. This includes configuration of device properties via internal settings or installing security software, record-keeping to assess potential threats, physical and digital safeguards to prevent unauthorized use of devices, and adequate training to protect the system and its users from unintentional or malicious security breaches.

Machine Tool Marketing
Tulsa, OK

IT Support and Website Design   2019 - 2021
Worked with Machine Tool Marketing to create a website, maintain company equipment, troubleshoot hardware and software issues, and sort out internet service issues alongside the internet provider.

John Brown University
Siloam Springs, AR

3D Modeling Teaching Assistant   2018 - 2020
Assisted students with Blender workflow in Mr. Pohle's 3D Modeling class, including modeling, UV unwrapping, shader editing, texturing, rendering, and basic animation techniques.

John Brown University
Siloam Springs, AR

Illustrator - Threefold Advocate   2018 - 2019
Created graphics for use within the Threefold Advocate student newspaper.

John Brown University
Siloam Springs, AR

Food Services Worker   2017 - 2018
Scrubbed, washed, and cleaned dishes in the cafeteria at John Brown University.
